

## **NA Trading and Technology Introduces the Konica Minolta Drum Unit Conversion Chip**

MINNEAPOLIS, MN (June13,2014) – NA Trading and Technology (NATT), a distributor of OEM-compatible high-performance copier parts and supplies, created a way to eliminate the need to purchase costly color drum units by offering a chip that allows a technician to convert a black drum to color.

This chip allows the technician to use the Drum Unit A2XN0RD (DR512K) in the A2XN0TD (DR512CMY) Color Drum Unit applications. Simply replace the chip on the DR512K with ours and install the drum unit as per manufacturer's instruction.

This Conversion Chip can be used in models: BHC224, BHC224e, BHC284, BHC284e, BHC364, BHC364e, BHC454, BHC454e, BHC554, and BHC554e.

NA Trading and Technology's Drum Conversion Chip will save you hundreds of dollars every time you change a color drum set. In addition to the fantastic savings, it will also help streamline your parts ordering and technician car stock. This chip is very simple to install in the field and will only take a few minutes for the technician to implement.
