

## **NA Trading to hit the road with cautious optimism**

MINNEAPOLIS, MN (March 3, 2021) – Your business is essential, and there are a lot of ways NA Trading can keep your business thriving under difficult conditions. Rely on NA Trading to adapt in ways that allow us to provide the best quality products and service possible. But things are changing, and we're optimistic.

Most of our team members are back in our offices, adhering to daily protective measures such as daily temperature checks and masking, and they all remain focused on providing the best parts, supplies and service to our customers. Our shipping and manufacturing team members continue to work hard to ensure we are able to get parts and supplies to you when and where you need them. Will-call remains available to our local customers.

We've been hunkered down for a while now, but we're antsy to get back out and see our customers in person. We'll be cautiously poking our head up. If it feels safe, we're willing to travel for customer visits and industry events like the BTA's annual [Spring Break](#) in Orlando later this month. Yes, we'll be there. With bells on! (And by bells we mean masks.)

Circumstances remain fluid, so continue to visit [www.natrading.com](http://www.natrading.com) for updates about how we're adapting and how we can help your essential business do the same, or call 800-231-8434 and speak with your dedicated product specialists.
