

Life Extension Kits for Ricoh

NA Trading and Technology has another great opportunity to extend the life of your popular Ricoh family drum units and spare yourself the cost of the high-dollar replacements. When you're ready to save a bunch of money, check out our drum unit life extension kit.

This kit contains one top-quality PCR, a PCR cleaning roller and an OEM style wax bar, each sourced from the best vendor using OEM-quality materials. Any tech will find swapping out the rollers and the wax bar quick and easy, and our testing shows these replacements allow the unit to easily go an additional 300,000 copies past the rated yield!
