Reduce waste while increasing your bottom line.

NA Trading and Technology is the only manufacturer to introduce this revolutionary WTB. With OEM bottles you're either forced to replace bottles, or spend all afternoon wrestling the waste toner out. Luckily, this WTB was designed for easy and fast waste toner removal to maximize recycling and ultimately savings.

These bottles fill so quickly and frequently, that we designed a WTB with a plug attachment, allowing you to dump waste toner easily either by hand or by vacuum. Once your done, just reinstall the bottle into the machine and be on your way.

No more throwing out a giant box of plastic, only to use another one.
