

NATT #: 02037007

For use in:

AF MPC2800/ AF MPC3300/ AF MPC4000/ AF MPC5000
C2828/ C3333/ C4040/ C5050
LD528C/ LD533C/ LD540C/ LD550C

NA Trading and Technology offers a broad selection repair and improvement items, including this Wiring Harness Conversion Plug.

This plug allows the Ricoh D029-2252 black drum unit to operate in all color stations, eliminating the need for costly color drum units. The plug is also good for the life of the machine and never needs to be replaced.

Realize a 66% savings in using this product and eliminating the need for color drum units.

This unit has been thoroughly tested in CMY applications and will produce OEM equivalent results.

Only Available from NA Trading and Technology!

Installation Instructions

1. Remove front handle/cover from the black unit, OEM number D029-2252.

2. Connect the conversion plug to the drum unit.

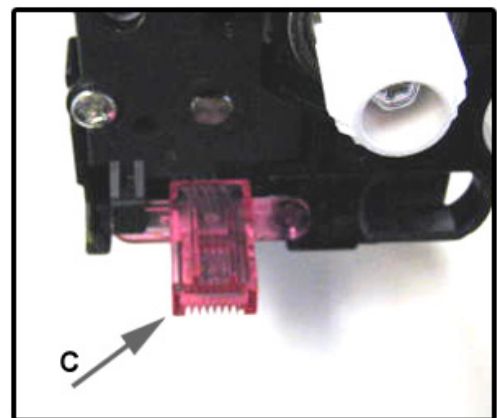

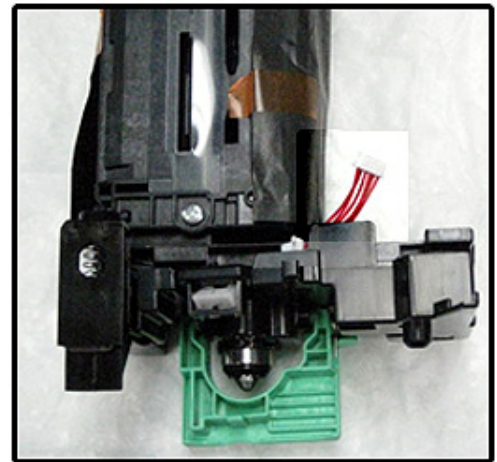

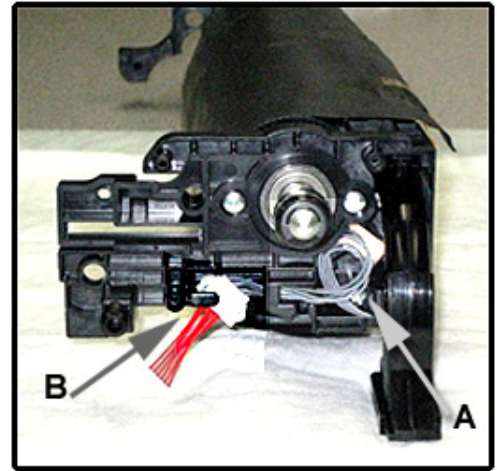

3. Loop the drum unit wire out of the way. (A)

4. Wedge connector behind the tab. (B)

5. Replace the front cover.

6. Use a Dremel tool, wire snips, or other cutting device to trim the upper left side of the RJ-45 connector at rear of unit. The connector should look symmetrical. (C)

7. Drum Unit is now ready to install.
